

Art and Design Overview

The following overview is broken down into Foundation Stage (Nursery and Reception), Year 1 and Year 2.

Foundation Stage - In the Early years Art, Design and creativity play a very important part of everyday life. Children will experience focused group activities where skills are introduced and developed. They will also have opportunities to access a range of experiences and resources in our continuous provision, during independent learning. Creative activities link to the topic being taught, and starting pointing can be taken in any direction for the children to develop independently or with support.

How we evaluate our work

Nursery	Reception	Year 1	Year 2
I can begin to talk about my own and others' artwork and what I like.	I can begin to evaluate my own and others' artwork verbally and talk about what I like.	I can evaluate my artwork after it has been created considering what went well and what can be improved.	I can evaluate my artwork throughout the making process and reflect upon it after completion, discussing choices made and reasoning why.

Art and Design for all and Cultural Capital

We are committed to ensuring that all children throughout Eastfield have an enjoyable and inspiring creative journey during their time here. We ensure that creative experiences are accessible, and contributions valued from all children no matter their ability. These include using a more structured approach, increasing the level of support, and giving further time to explore and consolidate skills. A multi-sensory approach is adopted for children with higher needs. Children who have strong interests in creativity are introduced to more challenging skills, encouraged to develop existing skills, and explore the work of artists and crafts people in greater depth. Creativity from other cultures and religions is celebrated within topics, cross-curricular learning, and school events, such as the Eid Tea and Art Days. During our Eid Tea parents and staff gave firsthand experiences of having mehndi designs for children and families. Our Art Days consist of Earth Art Day where children learn about environmental issues and recycle and use

nature to create Art. Art and Design around the World Day is an opportunity for each class to study the art of different countries in more depth, learn about the country and produce art inspired by the culture.

We are delighted to hear from parents and families who are willing to share their creative and art skills with the children. We welcome and celebrate creative works made at home. We also hold a weekly Art Club.
